01 PROFILE

Software QA Engineer with 6+ years of experience testing enterprise SaaS, healthcare, web, mobile, and API applications. Skilled across manual and automated testing — functional, regression, usability, and user acceptance — with deep practice in API validation, defect lifecycle management, CI/CD workflows, and Agile delivery. Recognized for clear communication, ownership of testing efforts, and continuous process improvement.

02 EXPERIENCE

2025.03 —
PRESENT

Software QA Analyst

United Rentals · Kansas City, MO

- Execute manual functional, regression, usability, and user acceptance testing for enterprise applications; document detailed defects, validate fixes, and support high-quality releases.
- Design and maintain test plans, test cases, regression suites, checklists, and QA documentation to improve release quality and testing consistency.
- Track quality metrics and analyze testing results to support release readiness and defect prioritization through data-driven reporting.
- Partner with developers and product teams to reproduce issues, identify root causes, verify fixes, and ensure successful production deployments.

2018.12 —
2025.03

Software QA Engineer

LTIMindtree · Dallas–Fort Worth, TX

- Performed manual, API, mobile, web, Windows, and enterprise application testing across Agile software development lifecycles.
- Converted business and technical requirements into detailed test plans and test cases for functional, regression, usability, and release validation.
- Managed defect lifecycles in Jira and related QA tools, collaborating with engineers to resolve issues efficiently across sprint ceremonies.
- Played a key role in resolving critical defects during high-pressure situations, preserving client trust in product quality and delivery timelines.

2018.03 —
2018.10

IT Help Desk Technician — Intern

HCA Healthcare · Overland Park, KS

- Supported healthcare professionals in a clinical IT environment, resolving hardware, software, and workstation issues with accurate documentation.
- Diagnosed, repaired, and re-imaged laptops and PCs while logging support interactions and recurring issue patterns.

03 OPEN-SOURCE PORTFOLIO PROJECTS

✓ Echo Q Bot

AI-powered QA automation platform — Electron, Playwright, React, TypeScript — automating Gherkin/Xray test execution with screenshot and DOM evidence capture, pass/fail logging, Jira workflow integration, and secure credential management.

✓ Prompt Police

TypeScript prompt-risk scanner with CLI and local GUI workflows, detecting prompt injection, jailbreak attempts, credential leakage, unsafe tool use, and data-exfiltration patterns.

✓ Visible Capture

Local-first Chrome extension capturing visible table and card data from an authorized tab, deduplicating rows, storing data locally, and exporting CSV — no external APIs or telemetry.

✓ Agent Affairs

Open-source AI-agent evaluation harness for repeatable investigation suites: deterministic checks, local SQLite run history, regression comparison, CI failure gates, and Markdown/JSON/HTML evidence reports.

✓ Repo Doctor AI

TypeScript CLI that scans repositories and scores presentation, build/test readiness, CI/CD health, and security hygiene — generating prioritized fixes and safe templates for cleaner releases.

✓ Cloakweave

Local-first desktop RAG application — Electron, React, TypeScript, SQLite — with semantic retrieval, local embeddings, cited Q&A, and optional Ollama support for private document search.

04 CAPABILITIES

QUALITY ASSURANCE

Manual testing · functional · regression · smoke & sanity · API testing · UAT · usability · web & mobile testing · test plans & cases · release validation · quality metrics

AUTOMATION + DEV

Playwright · JavaScript · TypeScript · Node.js · Gherkin/BDD · React · Electron

TOOLS + CI/CD

Jira · Xray · TestRail · HP ALM · Jenkins · Git · GitHub · SQL · Excel/CSV · Windows · iOS · Android

METHODOLOGIES

Agile · Scrum · SDLC · defect lifecycle management · root cause analysis · cross-functional collaboration

05 EDUCATION + CERTIFICATIONS

2019.12

Associate in Science, Computer Networking

Kansas City Kansas Community College · Kansas City, KS

CERTS

CompTIA A+ · CompTIA Network+ · Data Analyst Training — Apache Pig, Hive, SQL · Certified Microsoft Office Specialist

LANGUAGES

English · Hindi · Urdu
